

Curriculum

***“Let classes be formed, and instruction be given regarding the treatment of disease”
8 Testimonies, 148***

Rationale

The purpose of the Med Missionary Training course is to:

- bring physical and spiritual health¹
- lessen suffering and disease²
- prepare minds for the reception of truth³
- rescue many from physical, mental and moral degeneracy⁴

Purpose

The medical missionary work is to the cause of God as the right arm of the body. The third angel’s message goes forth, proclaiming the commandments of God and the faith of Jesus.⁵

Mission

To offer a global online community and Christian health education platform that is dedicated to connecting and empowering medical missionaries to spread the gospel message throughout the world, following Christ’s methods of healing and educating.

Values

- Work in connection with Jesus⁶
- Demonstrate health principles⁷

² *Ibid.* 45; *Counsels on Health*, 22

³ *Ibid.* 22

⁴ *Testimonies*, vol.6, 378

⁵ Letter 55-1898.4

⁶ *Desire of Ages*, 821-825

⁷ *A Call to Medical Evangelism*, 26

Curriculum

Aim

Encourage students to:

- Help other people and support themselves financially
- Use high-nutrient food consistently, keeping chemicals out of lives
- Simplify natural treatments prayerfully, always moving forward in knowledge and skill with guidance of the Holy Spirit
- Investigate health issue(s) for survival; prioritize and address issue(s) accordingly
- Progress through overwhelming phases in learning; knowing eventually accomplishment will occur
- Observe Health Coaching operation and supporting materials
- Assess health evaluation form; therapeutic menu; and resources
- Invest your time and means
- Combine the gospel and health ministry

Curriculum Standards

1. Examine the components of healthy living and coaching
2. Recall the Seventh-day Adventist history of medical missionary work
3. Identify principles of health in the Bible

Assessment

You may use your notes to complete your 7 tests composed of multi-choice questions.
